## Billy the Bilby

Bilbies are small marsupial animals. They live in burrows which can be up to 2 metres long! They are nocturnal which means that they become active at night time and sleep during the day!

**A wild bilby!**

If you want to see a bilby in the wild you have to go to South Australia, the Northern Territory or Western Australia (if you're really fortunate you might see one in other parts of Australia as well). They are really shy animals though so you have to look out for them—because they are so rare you should consider it a very special treat to see a bilby in the wild!

**Billy!**

Billy the Bilby was chosen as the mascot for BCA for kids because bilbies only live in Australia and are endangered. This means that there aren't many bilbies left and they need to be saved.

Everybody in Australia needs to be saved through Jesus and BCA works to spread the gospel throughout Australia so people can learn more about him—otherwise Christians might become endangered!
